

# RUG SHAMPOO

## CONCENTRATED DRY FOAM CARPET & UPHOLSTERY SHAMPOO

# PRODUCT INFORMATION

**DESCRIPTION:** RUG SHAMPOO is highly concentrated carpet shampoo that can be used in all types of shampooing equipment: dry foam, rotary, spray scrubbers, hand and manual cleaning. This shampoo penetrates deep into the carpet pile, attacking the soil and holding it in suspension. The foam then dries to a fine powder and is easily vacuumed away.

**USE:** RUG SHAMPOO is used to clean heavily soiled rugs and carpets in schools, retail stores, bank, offices, hospitals, hotels, restaurants, etc. It is safe to use on most carpet fabrics. It works rapidly and contains brighteners to renew colors.

**DIRECTIONS:** FOR MACHINE USE: Vacuum rug thoroughly to remove all loose surface soil. Pre-spot with Spot Remover. Mix RUG SHAMPOO (15-1) with warm water. Use foam for scrubbing. When using single disc tank machine it is recommended that you follow quickly with a wet pick up vacuum. With other automatics it is best to allow 30 minutes dry time before using dry vacuums. Use a stiff nylon brush or pile rake to lay pile in same direction when finished shampooing.

**SPECIFICATIONS:**

Color.....	Blue-Green
Odor.....	Mint
Specific Gravity .....	1.06
pH.....	6 ± 0.5
Solubility.....	Complete
Rinsibility.....	Excellent
Foaming.....	Excellent
Freeze Thaw.....	3 cycles
